

Practice Procedures

TTW have produced these practice procedures to facilitate the implementation of its Safeguarding and Protecting Children Policy.

Their aim is to;

- Ensure that all involved in table tennis in Wales have information about what is expected of them and others whether they are staff/volunteers, adult members, junior members or parents/carers.
- Provide a framework for practice to prevent or minimise harm to children.
- Provide a framework for measuring and taking action when a situation arises that may or has caused harm to children.

Index of procedures
